CAN-AM®

The origin of CAN-AM chain dates back to 1966, and a small machine shop in Richmond, BC. Today three plants with more than 210,000 square feet of manufacturing space, support 10 sales branches from coast to coast, making us the largest producer of welded steel and specialty chains in North America.

Sprocket Ordering Guide11

Challenge Us Today!

CAN-AM FABRICATED STEEL SPROCKETS are normally made of mild steel plate. Heat treated plate sprockets with hardnesses from 360 to 500 BHN are available. Unless otherwise requested, O.D. of hubs will be sufficient to accommodate bore and keyway desired. Keys are not supplied

Chain Number	Number of Teeth	Pitch Dia.	Max. Bore	Tooth Face

with these items unless requested or unless mounted on shafts. Split sprockets provide an economical means of mounting sprockets on shafts where it is prohibitive to dismount the shaft assembly. Many sizes of sprockets are stocked with bores, keyways, and set screws already provided. Plates or partially finished sprockets are also stocked. In the case of long link sprockets and idlers, please specify the size of chain that will be used. Bronze and urethane bushing material is stocked for immediate insertion.

NOTES

PRODUCTS AND SERVICES PROVIDED BY CAN-AM CHAINS

SHARP CHAINS D.L.I. CHAINS

Can-Am Chain makes a full range of specialty chain and flights to suit all facets of industry. Pictured here are two examples of high speed scanner/canter feed chains for the lumber industry.

CAN-AM ROLLER CHAIN

Built to our exacting standards and requirements to exceed ASNI standards. These chains are all made with solid rollers and bushings.

MILL & DRAG CHAIN

Can-AM's flag ship. We manufacture mill and drag chain for the world.

SPLIT SLEEVE BEARINGS 2-2500 SERIES

Can-Am manufactures a full line of these bearings and stocks them with liners of UHMW, bronze, babbitt or Zinc Aluminum.

Please contact us for further information or visit our web site at www.can-amchains.com
